

# INDEX OF VOLUME 87 (2003)

The format of the 2003 *Bulletin* index consists of titles, authors, and keywords. Beginning at the left, column one references a regular *Bulletin* article (BU) or a *Bulletin* abstract (BA). Column two indicates the volume and issue numbers (8702 = volume 87, issue number 2). Column three gives the page number. Column four indicates whether the entry is by title (T), author (A), or keyword (K). The fifth column is the entry itself. Please note that this index does not show multiple authors in any one listing; each author is listed separately.

A complete index of authors and titles from 1917 through 2001 is available in digital format from Datapages, Inc., P.O. Box 979, Tulsa, Oklahoma 74101.

- BU 8707 1246 T 2002-2003 AAPG distinguished lectures  
 BU 8710 1693 T 2003-2004 AAPG distinguished lectures  
 BU 8710 1697 T 2003-2004 AAPG-SEG joint distinguished lectures  
 BU 8706 909 T 3-D seismic geomorphology: insights into fluvial reservoir deposition and performance, Widuri Field, Java Sea  
 BU 8707 1223 T A fuzzy logic approach for the estimation of facies from wire-line logs  
 BU 8709 1485 T A geochemical perspective and assessment of leakage potential for a mature carbon dioxide-enhanced oil recovery project and as a prototype for carbon dioxide sequestration; Rangely Field, Colorado  
 BU 8703 445 T A new process-based methodology for analysis of shale smear along normal faults in the Niger Delta  
 BU 8711 1717 T A novel technique for modeling fracture intensity: a case study from the Pinedale Anticline in Wyoming  
 BU 8712 1915 T AAPG Annual Report  
 BU 8706 1033 T AAPG honorees, 2003  
 BU 8704 529 K AAPG, petroleum, publications, technical writing  
 BU 8702 273 K Abo Formation, carbonate rocks, Kingdom Field, oil and gas fields, petroleum, seismic methods, seismic stratigraphy, Texas  
 BA 8710 1695 A Abreu, V., Physical stratigraphy of clastic strata; a hierarchical approach to the analysis of genetically related stratigraphic elements for improved reservoir prediction
